MISSION STATEMENT

***To enable sustainability
in the community
through education,
family support and
health care.***

How we achieve this

EDUCATION

Provide English Language and general education to children and young people. Khmer literacy classes for adults. Vocational Training to young adults and disadvantaged groups

FAMILY SUPPORT

Food aid, house repairs, install water wells/water filters, sanitation and micro loans. Garden space for vegetable growing. Support to keep children in state school.

HEALTH CARE

Access to adult and children facilities in hospitals. Access to dental care and regular eye tests. Health Education program

Grace House Community Centre (GHCC) is situated between Siem Reap and Tonle Sap Lake. Little of the money tourist bring into Siem Reap reaches these villages and locals rely on fishing and farming to make a living.

Originally established in November 2008 by Globalteer, a UK charity, GHCC was awarded local NGO status in April 2010 and is a registered charity in England and Wales through Globalteer.

The centre provides education, vocational training and family support to three villages; Kor Kranh, Treak and Spean Chreav. Starting with an English language and general education program, the project has expanded with an emphasis on the Vocational Training and support for families.

The long term aim is to increase sustainability, GHCC hopes to achieve this by teaching skills, enabling employment or establishment of small businesses.
